

CM SERIES

The CM 3 Compact Modular Vacuum Lifting System takes skid steer attachments to a new level! Easily adaptable to multiple applications and host machines, the CM 3 features rugged all-steel construction to handle materials up to 6,600 lb (3 tonne). The first vacuum lifting solution of its kind, the patent pending CM 3 is an efficient solution to a wide variety of material handling needs, allowing larger skid steers and track loaders to safely lift concrete slabs, steel plates and pipe with ease.

- Available with manual or wireless remote control.
- Removable legs for storage.
- Weighs the same as a standard bucket so there is no change in lift capacity of the host machine (with standard mounting assembly).
- Can accommodate single or double pad configurations to lift a variety of material weights and sizes.
- Includes quick-connect hydraulic hoses and factory pre-set flow control valve to ensure optimal performance.
- Hydraulically driven vacuum pump operates using the auxiliary hydraulics from the host machine (minimum 10 GPM required with maximum 3,000 PSI).
- Models with innovative accumulator design allow contractors to use the system on equipment without a case drain.

Specifications

	Lift Capacity	Weight (kg)	LxWxH (mm)
CM3	6,600 lb (3 tonne)	304 lb (138 kg)	L 23" (584 mm) x H 25" (635 mm) x W 28" (711 mm)

Base unit includes picking eye and removable storage legs (pad beam, pads and mounting assembly sold separately).

STANDARD PAD OPTIONS

	Lift Capacity	Weight (kg)	LxWxH (mm)
CM-2424	3,463 lb (1,571 kg)	97.6 lb (44.2 kg)	24" x 24" (610x610 mm) inner/28" x 28" (711x711 mm) outer
CM-3030	5,531 lb (2,500 kg)	133.5 lb (60.5 kg)	30" x 30" (762x762 mm) inner/34" x 34" (864x864 mm) outer
CM-3636	8,060 lb (3,656 kg)	176.4 lb (80 kg)	36" x 36" (914x914 mm) inner/40" x 40" (1016x1016 mm) outer
